One-day workshop on

Unlock Your Creativity: CNC Wood Crafting Workshop

March 2, 2024

IIT Gandhinagar

This hands-on experience will take you through the fundamentals of CNC Milling, Routing, and Engraving in the world of wooden craftsmanship.

Hands-On Experience

Engage in practical sessions with cutting-edge CNC machines. Experience the thrill of crafting intricate designs and learn the artistry behind CNC woodwork.

Certificate of Participation

Upon completion of the workshop, each participant will receive a participation certificate recognizing their commitment to skill development in CNC wood crafting.

Workshop Highlights

Morning Session (10 AM - 1 PM):

- Concepts of CNC Milling and Routing
- Principles and practice of CNC engraving
- Hands-on experience with CAD design for CNC

Afternoon Session (2:30 PM - 5:00 PM):

- 2D Rofiling and area clearance
- 3D Profiling in wood crafting
- Real-time applications

Practical hands-on experience

Understanding of CNC milling and routing in wood

E-certificate of participation for each attendee
