

700 students flock IITGn

Gandhinagar: Around 700 students from across the state flocked to Indian Institute of Technology Gandhinagar (IITGn) on Saturday to see the research labs of the institute. The labs were opened for outside students as part of its annual technological event called 'IGNITE 3.0'. Research students working in the labs explained the

specialties and applications of the equipment as well as the kinds of researches that are done in the IITGn labs.

The institute also hosted several events including 3-D printing workshop, expert talk on drones followed by airshows, quiz and exhibition of scientific projects by students of IITGn. -DNA
