Indian Institute of Technology Gandhinagar (IITGN) is going to organize Undergraduate Research Conclave (UGRC) 2018 for the Institute's undergraduate students, who interned abroad or in India during the previous summer. Seventeen students will present posters of their research work in UGRC 2018 on August 25, 2018.

Students of IITGN had interned in various prestigious institutes/ universities in India and abroad during the summer of 2018 including University of Saskatchewan, California Institute of Technology (Caltech), University at Buffalo, Washington University in St. Louis, National Sun Yat-Sen University, IITGN and so on. The students worked on the research project that included Modelling Polyacrylamide Hydrogel Membranes in Oil Water Mixture, Art and Geometry through the Looking Glasses, Developing a Cognitive Pressure Sensor to Measure the Center of Pressure, Water
