

Ramanujan Fellowship for IIT-Gn faculty

Dhiraj Bhatia, assistant professor of biological engineering at the Indian Institute of Technology, Gandhinagar (IIT-Gn), has been awarded the prestigious Ramanujan Fellowship by the Science & Engineering Research Board (SERB). Founded by the Government of India, the Ramanujan Fellowship is awarded to Indian scientists and engineers from all over the world who want to return to India from abroad to engage in scientific positions in India. Bhatia said that his research lies at the interface of nanotech, cell biology and microscopy.
