

IIT-Gn to host 2-day symposium

The physics discipline of IIT-Gn will host a two-day symposium 'Frontier Problems in Physics' which will begin on November 20. The symposium will see scientists talk about outstanding research areas in theoretical and experimental physics. Professor Rajesh Gopakumar from ICTS, Bangalore will talk about string theory and quantum gravity, professor Biswarup Mukhopadhyaya from HRI Allahabad is going to speak about high energy particle physics, professor Amlan Pal of IACS, Kolkata, will discuss Nano-Science.
