

IITGn seminar on kin intervention

Experts pondered over parental interventions to deal with students who face challenges on academic and non-academic front at the 8th Academic Advisory Council of the Indian Institute of Technology Gandhinagar (IITGn). Academicians from India and abroad as well as faculty members of IITGn discussed issues of academic priority for the institute which is stepping into second decade since its inception. They debated on the current support mechanisms such as counselling, peer assisted learning, socio-cultural factors that affect a student's performance, etc.
